The winner of the coin toss then may either choose which Team kicks first (in which case the loser chooses the end at which all kicks will be taken) or choose the end at which all kicks will be taken (in which case the loser chooses which Team kicks first).
- b. Each team captain must nominate 5 players to participate in the kicking competition. Only the 5 players nominated by the captains and present on the playing enclosure at

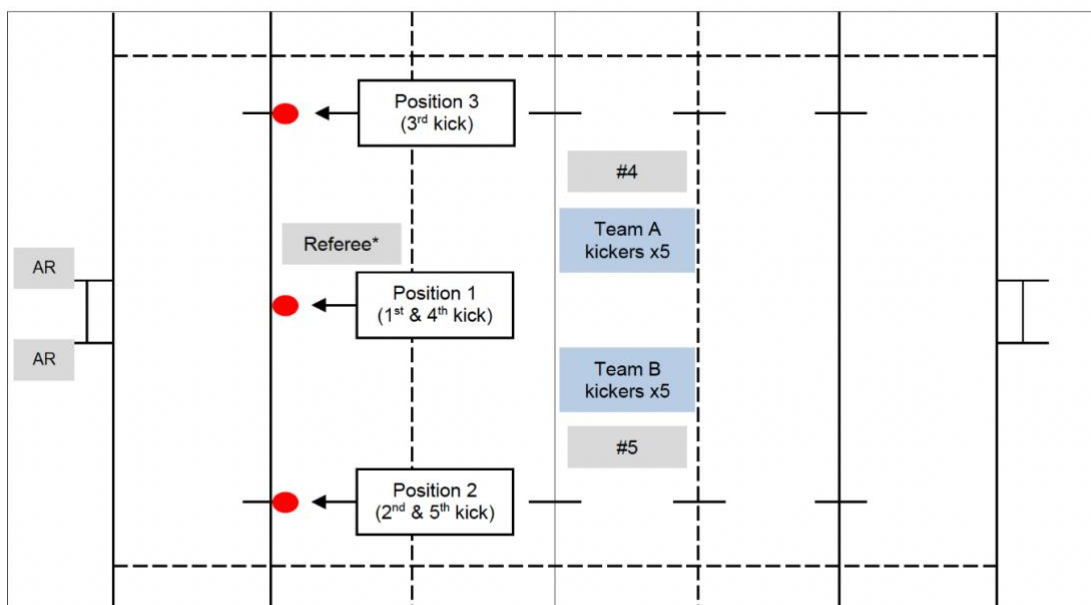

the time of the completion of the extra time may take part in the kicking competition. No injured, substituted or dismissed player may take part at any time. The order in which the players kick does not have to be predetermined.

- c. The Match Officials and Team Members will assemble on the halfway line. Team Members must remain behind the halfway line in the side of the playing area not used for the kicking competition. No one except the referee, two touch judges and two ball boys/girls are allowed in the part of the playing area being used for the competition.
- d. The five players from each Team will place kick from three different points, all on the 22-meter line, as follows:
  - First point: directly in front of the posts.
  - Second point: on the 15-meter line on the left-hand side facing the posts.
  - Third point: on the 15-meter line on the right-hand side facing the posts.
- e. The referee will start the competition by calling the first player selected from the Team kicking first to the first kicking point. Once the player has taken the kick, the referee calls a player from the opposing Team to kick from the same point.
- f. The next two players (one from each Team) will kick from the second point in turn. This will continue until all five players from each Team have kicked (the next players kicking respectively from the third point, first area and finally the second point), or until one Team is unable to equal the score of the other Team within the remaining number of kicks.
- g. If there are an equal number of successful kicks once each Team has completed its five kicks, the competition continues on a “sudden death” basis, following the same order of kickers used in the first five kicks.
- h. The competition will continue two kicks at a time (one from each side), going progressively through the three kicking areas stated above (and repeating the process if necessary) until one player succeeds with a kick and the player from the other side taking the same kick misses it. Once this occurs, the Team of the player who succeeded with the kick will be declared the winner. Each of these additional kicks shall be taken by the same 5 players in rotation.

Throughout the kicking competition:

- Once a player has been handed the ball by the referee on the kicking point, they must take the kick within one minute. Should they take longer, the referee shall declare the kick void and therefore a miss.
- After each kick, the referee records the number of the player and whether the attempt was successful. The Match Commissioner will record the same details in the official Match Report.
- Whether or not a goal is scored from each attempt is the sole decision of the referee, who may at their sole discretion rely on the assistance of their touch judges. The referee’s decision shall be final and binding.
- Once a player has completed their kick, they shall return to stand with their Team behind the halfway line in the side of the playing area not used.

**Please refer to the diagram below which demonstrates the operation of the Kicking competition:**
